Get Messages provides a location to view/process ETID's based on actions taken by Disposition Services Sites. It can be used as an alternative way to managing ETIDs in lieu of by Status Code.

Customers will receive messages notifying them that an ETID has been approved, rejected, or redirected.

The “ETID - Messages” screen provides a summary of messages by priority. “Action Required” means an action identified in the message will be required of the user. “Warning” and “Info” messages inform of an action that has been taken on an ETID or WPS, but no further direct action is required.

Use the filters to adjust listings of messages.
